Tolerance ±2 cm (±1 cm on sleeve width, cuffs, hood and zipper)

How to Measure

1 Height – the wearer's height the size is made to fit (without shoes)
2 Chest – garment laid flat, measured across under the arms, then doubled
3 Sleeve length – shoulder seam to end of cuff
4 Leg seam – crotch seam to end of ankle cuff
5 Crotch – waist to crotch seam (rise)
6 Sleeve width – across the upper sleeve at the underarm, laid flat

Choosing a size: match your height to the Height column first. The chest figure is the coverall's own measurement, so it should be roomier than your body chest. Between sizes or layering? Go up a size.
