PP+PE SHOE COVERS

PRODUCT DATA SHEET

Shield Right

Intended Use

Shield Right PP+PE Waterproof Shoe Covers combine a breathable 40 gsm polypropylene upper with a PE layer to keep footwear clean and dry on wet or contaminated floors. With an elastic opening for a secure fit over most footwear, these single-use covers suit clinical, food processing, laboratory and industrial environments where contamination control is important.

Technical Specifications

Type: Disposable shoe covers (single use)
Material: 40 gsm PP with PE layer
Weight: 9.6 g per piece
Design: Waterproof shoe cover, 17 × 40 cm
