LEVEL 3 ISOLATION GOWN

PRODUCT DATA SHEET

Shield Right

Intended Use

Single-use CPE isolation gown designed to provide reliable barrier protection in clinical and healthcare environments. This gown is ARTG listed (TGA No. 427431) and tested to meet AAMI PB70 Level 3 requirements, offering high-level fluid resistance for procedures with moderate to high risk of fluid exposure. Suitable for use in hospitals, medical centres, and infection control settings where protection against fluid penetration is critical. Not intended for sterile surgical applications.

Technical Specifications

Material: Chlorinated Polyethylene (CPE)
Gauge / Thickness: 0.03 mm
Colour: Blue (aids donning/doffing compliance)
Closure: Adjustable tie-back at waist
Sleeve Retention: Integrated thumb loops
Sterility: Non-sterile — not for sterile field use
Allergens: Latex-free
Packaging: Individually packaged for infection control compliance

Standards Compliance

- **ARTG No. 427431 (TGA)**
- **ISO 13485 / ISO 9001**
- **AAMI PB70 Level 3**
- **ASTM F1670/F1670M-25**

Shelf Life

3 YEAR

3 years from date of manufacturing if stored correctly

Temperature: Between -5°C & 40°C
Humidity: Below 80%
Sunlight: Do not expose to direct sunlight
Frequency: Keep away from high frequency environments
