P2 RESPIRATORS
MOULDED, VALVED
PRODUCT DATA SHEET

Shield Right

Intended Use

Shield Right P2 Moulded Valved Respirators protect against fine dusts, mists and fumes in construction, mining, manufacturing, agriculture and general industry. The exhalation valve reduces heat and moisture build-up, keeping the wearer cooler over long or strenuous shifts.

Descriptions

- P2 filtration for fine particles.
- Exhalation valve for cooler breathing.
- Moulded cup holds its shape.
- Adjustable nose clip and foam seal.
- Adjustable buckle straps.

Standards Compliance

- **AS/NZS 1716:2012 P2**
- **Lic. No. 20631 (SAI Global)**
- **Filtration Efficiency ≥ 94%**

Shelf Life

3 YEAR

3 years from date of manufacturing if stored correctly

Respirators shall maintain their properties when stored in a dry position. Avoid direct sunlight.

Technical Specifications

Mask Type: P2 moulded respirator
Material: Non-woven / melt-blown
Filtration Efficiency: P2 – ≥ 94%
Fit: One size, adults
Closure: Adjustable buckle straps
Design Features: Exhalation valve, nose clip
Usage: Disposable
Packaging: 12 respirators per pack
