P2 RESPIRATORS
TRIFOLD, VALVED
PRODUCT DATA SHEET

Shield Right

Intended Use

Shield Right P2 Trifold Valved Respirators protect against fine dusts, mists and fumes in construction, manufacturing, agriculture and general industry. The exhalation valve keeps the wearer cooler, and the flat-fold design packs neatly into a pocket or kit.

Descriptions

- P2 filtration for fine particles.
- Exhalation valve for cooler breathing.
- Trifold design folds flat for storage.
- Adjustable nose clip.
- Strap type: TBC.

Standards Compliance

- **AS/NZS 1716:2012 P2**
- **Lic. No. 20631 (SAI Global)**
- **Filtration Efficiency ≥ 94%**

Shelf Life

3 YEAR

3 years from date of manufacturing if stored correctly

Respirators shall maintain their properties when stored in a dry position. Avoid direct sunlight.
