4-IN-1 RAPID ANTIGEN TEST

SARS-COV-2 • INFLUENZA A/B • RSV

PRODUCT DATA SHEET

Shield Right

Intended Use

Qualitative lateral flow immunoassay detecting SARS-CoV-2, Influenza A, Influenza B and RSV antigens from one nasal or nasopharyngeal swab. Supports rapid triage, infection control and outbreak management in hospitals, clinics and aged care.

Technical Details

- 4 respiratory pathogens, 1 swab
- Results in approx. 15 minutes
- No analyser or lab equipment needed
- Clear visual cassette read-out
- Specificity ≥99.4% for all targets
- Room-temperature storage (2–30°C)

Specifications

- Method: Lateral flow immunoassay
- Specimen: Nasal or nasopharyngeal swab
- Sensitivity: SARS-CoV-2 97.0%, Flu A 95.0%, Flu B 92.9%, RSV 94.3%
- Specificity: SARS-CoV-2 99.6%, Flu A 99.6%, Flu B 99.4%, RSV 99.7%
- Result: Qualitative, read at 15 minutes
- ARTG No.: 513625

Shelf Life

24 months from date of manufacture when stored as directed

Store at 2°C – 30°C. Single use only.
Interpret results alongside clinical assessment.
Dispose of used tests as clinical waste.

ARTG 513625 **Nasal / NP swab**

	SKU	Pack Qty	Carton Qty	Sample Type	Result Time	ARTG No.
1 Pack	SR7221	1 test	500 kits	Nasal / NP	15 min	513625
5 Pack	SR7222	5 tests	100 kits	Nasal / NP	15 min	513625
